Schedule of Authorized Reclassifications for FY 2021

Agency heads may be granted authority by the Mississippi State Personnel Board to reclassify positions within a class series, removing the requirement that each individual reclassification transaction be separately justified. The Mississippi State Personnel Board annually allows each agency to submit requests for changes to the authorized schedule of reclassifications.

It is the policy of the Mississippi State Personnel Board to provide for the reclassification of a position belonging to a class series by recognizing the increased value of an employee who has acquired additional experience, skills, and/or education which is directly related to the job. Reclassification provides a career ladder affording mobility for qualified individuals to advance to higher classified positions, which are substantially similar in the type of work performed. The authorized salary for reclassification of an occupied position is determined in accordance with the provisions for the Variable Compensation Plan Promotional Formula.

- A. Recommended for approval. Classifications which appeared on the Schedule of Authorized Reclassifications for FY 2020 are in regular type; new additions requested by agencies are in **bold**.
